

21st European Molecular Imaging Meeting

24 - 27 March 2026 in Ljubljana, Slovenia

THE EMIM 2026

Attracting over 1200 international participants – with attendance climbing year by year – the EMIM blends world-class science with a collaborative, inclusive atmosphere. It is the ideal stage to showcase your innovations, connect with decision-makers, acquire new customers, and stay at the forefront of science in this fast-evolving and vibrant field. We offer flexible exhibition options (p. 1 & 2) and numerous opportunities to boost your visibility and engage with participants (p. 3 & 4).

GOING GREEN! We are committed to reducing waste and minimising our ecological footprint. Please consider refraining from using e.g. disposable carpets, give-aways that are not produced fairly and ecologically, and (unnecessary) hard-copy flyers.
