

Research Fellow, Krebs Laboratory

Company Overview

At Memorial Sloan Kettering (MSK), we're not only changing the way we treat cancer, but also the way the world thinks about it. By working together and pushing forward with innovation and discovery, we're driving excellence and improving outcomes. We're treating cancer, one patient at a time. *Join us and make a difference every day.*

Please note that effective July 1, 2021, MSK will require all new hires, volunteers, and vendors who come onsite to provide proof of COVID-19 vaccination. This is based on the COVID-19 vaccines' high level of protection and our shared responsibility in protecting our patients.

Job Details

Memorial Sloan Kettering Cancer Center (MSK) is one of the world's premier cancer centers, committed to exceptional patient care, leading-edge research, and superb educational programs. The blending of research with patient care is at the heart of everything we do. The institution is a comprehensive cancer center whose purposes are the treatment and control of cancer, the advancement of biomedical knowledge through laboratory and clinical research, and the training of scientists, physicians, and other health care workers.

The Krebs Laboratory is currently seeking a highly motivated candidate for a postdoctoral position. The ideal candidate has a background in radiochemistry, cell engineering, imaging or radiotherapy.

The primary focus of the Krebs Laboratory is the development and preclinical evaluation of imaging and radiotheranostic agents in conjunction with cellular engineering. Our operation spans from bench to bedside, including researchers performing basic chemistry, cellular biology and animal research.

As such, new candidates not only need to be experts in their fields, they also must bring a high level of motivation to immerse themselves in a high-level collaborative and interdisciplinary environment, bridging the boundaries between various disciplines. Candidates for this position must have obtained a PhD or MD level of education.

Interested candidates should email <mailto:krebss@mskcc.org> with a cover letter indicating current and future research interests and expected availability dates, CV and names/contact details of three references.

Department:

Radiology

About Memorial Sloan Kettering Cancer Center (MSK)

MSK is an equal opportunity and affirmative action employer committed to diversity and inclusion in all aspects of recruiting and employment. All qualified individuals are encouraged to

apply and will receive consideration without regard to race, color, gender, gender identity or expression, sexual orientation, national origin, age, religion, creed, disability, veteran status or any other factor which cannot lawfully be used as a basis for an employment decision. Federal law requires employers to provide reasonable accommodation to qualified individuals with disabilities. Please tell us if you require a reasonable accommodation to apply for a job or to perform your job. Examples of reasonable accommodation include making a change to the application process or work procedures, providing documents in an alternate format, using a sign language interpreter, or using specialized equipment.
