

15 LAFOV PET-CT PhD positions at the **PREFERENCE** consortium

SIEMENS
Healthineers

COLLECTIVE
MINDS

Antaros
Medical

The **PREFERENCE** consortium, an EU funded Marie Skłodowska-Curie Action, is looking for 15 PhD students performing large axial field of view PET-CT research. There are 8 physics-oriented and 7 clinical research projects. More information on the research projects can be found at <https://preference-consortium.eu/>

Positions become available from the 1st of October 2026.

More information can be found at preference-consortium.eu
(updates on application procedure will follow soon)

If you are interested in one of the positions, please contact Prof.dr. Ronald Boellaard at preference@amsterdamumc.nl
